Summary

Results-driven and detail-oriented **Design QC Specialist** with over 4+ years of experience in Fiber-to-the-Home (FTTH) network design and quality assurance. Proven ability to manage complex projects, mentor team members, and consistently deliver high-quality, on-time designs that exceed client expectations. Recognized for rapid professional growth and outstanding contributions to team productivity and customer satisfaction. Seeking a challenging position to leverage my technical skills and leadership experience in a dynamic environment.

Professional Experience

Design QC Specialist | Hexad Solutions, Warangal, India

October 2024 – Present

- Led quality control for FTTH network planning and design projects for Ziply Fiber.
- Managed designs using the **IQGeo Database** across various regions (Northwest, California).
- Handled diverse project scopes, including JU, MRE, and Vulcan, ensuring all client requirements were met.
- Performed comprehensive quality checks and mentored team members, significantly improving overall team output.
- Ensured timely delivery of high-quality designs, contributing to high client satisfaction ratings.

Design Specialist | Cyient, Warangal, India

September 2021 – October 2024

- Designed and planned **Fiber-to-the-Home (FTTH) networks** for Frontier Communications.
- Managed designs in the **FROGs Database** and worked across multiple regions (California, Texas, West Virginia).
- Consistently delivered high-quality designs within project timelines and budget, ensuring customer satisfaction.
- Contributed to team quality checks and provided guidance to colleagues, leading to improved project outcomes.
- Promoted from Trainee to Design Specialist in less than 12 months due to exceptional performance and productivity.

Education

Bachelor of Technology in Mechanical Engineering | J.N.T.U.H

Christu Jyothi Institute of Technology and Science (CJITS), Jangaon | Graduated 2018
